

Free Webinars

for parents, caregivers and those who work with children and youth

Equipment for Improving Positioning and Mobility

Mobility: Using equipment to improve my child's ability to move and explore

Caregivers of infants and toddlers will learn about sleep patterns and needs, safe practices, and bedtime routines.

Positioning: Using equipment to help improve my child's ability to sit and stand

For parents and caregivers with children who are ages 9 months to 18 years and have challenges sitting on their own.

Wheelchairs: Getting started with my child's new wheelchair

For parents and caregivers with children who are age 2 years to 18 years and have or are about to get a manual wheelchair.

Wheelchairs: Helping your child use their wheelchair in their daily life

For parents and caregivers with children who are ages 2 years to 18 years and are already using a manual wheelchair.

Using a standing frame to help my child stand

For parents and caregivers, whose child has or is about to get a standing frame and is age 9 months to 18 years.

Using bathroom equipment and how to make it work for you

For parents and caregivers with a child aged 9 months to 18 years who needs extra help in the bathroom.
